Do I need to be on video?

Yes, turn on your laptop, tablet or phone camera, and if you do not have one you need to call in and at least your partner needs to have one. Identify your name on the call.

I Can't hear anything. What is going on?

Click the audio tab. If that does not work, leave the room and enter again, and make sure you test your computer audio button.

The round is over, what do I do?

Leave the room and go straight to next round on tabroom. If you need to go to the bathroom or eat, at least turn off your camera and mic and come back and turn on your camera. Eat when it is not your speech and turn on the camera when it is your speech.

Test out your mic & video. And make sure your WiFi is on or your ethernet is plugged in. Make sure you have a strong internet connection.

You need to login with an email account that is NOT connected to your school and link it to your name online. I can help you with that part. That way you can see your live ballots. If not your coaches have to look and see.
